

VI WEEK OF METROLOGY IN PERU

XII SYMPOSIUM OF METROLOGY IN PERU (VIRTUAL)

<https://www.inacal.gob.pe/metrologia/categoria/eventos>

2021 World Metrology Day

On May 20, World Metrology Day is celebrated to mark the signing of the Metre Convention in 1875. Peru was one of the 18 founding states. This treaty provided the basis for a unified and consistent measurement system throughout the world.

As part of the commemorative activities, each year INACAL's Metrology Directorate holds the Metrology Symposium in Peru, and this year in its XII edition (online) will feature national and international exhibitors.

This Symposium is aimed at experts, professionals and technicians of calibration and testing laboratories, industrial companies, professors and students of engineering and science universities interested in learning about the recent advances in metrology worldwide, and their applications in measurements of various physical and chemical quantities used in various fields of technology, industry, science, among others.

PLACE: Online

DATES: Wednesday 19 and Thursday 20 May 2021

SCHEDULE: From 10:00 to 12:30 and 16:00 to 18:00

FEE: Free

See the information (in Spanish) in the following INACAL web site link:

VI WEEK OF METROLOGY (Online)

The Directorate of Metrology, as part of the celebrations for World Metrology Day, is organizing the VI Metrology Week (online), an event that seeks to complement the already classic annual Symposium of Metrology with conferences and free trainings, looking for metrologists, industry, technicians students and society in general. Know more about Metrology, the science of measurements and their applications and how it is being developed in the Directorate of Metrology of INACAL.

The VI Metrology Week includes:

MONDAY, MAY 17, 2021

CONFERENCES:

- ❖ Homologation of pattern approval certificates for gas meters
- ❖ New procedure for the calibration of oscillatory-type densimeters

SCHEDULE: From 10:00 to 11:40

Virtual guided tour:

- ❖ Question and answer session of the virtual guided visit to the laboratories of the Directorate of Metrology

SCHEDULE: From 13:45 to 15:45

TUESDAY, MAY 18, 2021

CONFERENCE:

- ❖ New procedure for the subsequent verification of static active electric energy meters class 0.2 S; 0.5 S; 1; 2 and electromechanical class 2. Edition 1 - PV-014.

SCHEDULE: From 10:00 to 12:00

CONFERENCE:

- ❖ PC-008 procedure for the calibration of weights of accuracy classes M1-2, M2, M2-3 and M3 of the NMP 004: 2007, publication of 2021

SCHEDULE: From 15:00 to 17:00

FRIDAY, MAY 21, 2021

- ❖ Digital transformation in metrology

SCHEDULE: From 10:00 to 12:50

FEE: Free entry after registration
